### Profile

I am a front-end developer skilled in **HTML, CSS, JavaScript, and its frameworks** With **2+ years of experience**, I create visually appealing, responsive websites. I stay current with web development trends and apply strong logical problem-solving skills to optimize code and debug issues. I enjoy collaborating with designers and back-end developers to bring visions to life.

### Skills

**Languages:** HTML, CSS, JavaScript, etc.

**Frameworks and Library:** React, Next.js Astro, Bootstrap, Tailwind, Sass, etc.

**Basics on:** C, Java, Python, Android development, SQL, PHP, DBMS, Shell Scripting, and Node.js.

**Other Skills:** Version Control/Git, Responsive Design, Basic Graphic Design Skills, Animation Skills (CSS/JavaScript), SEO, etc.

### Work Experience

#### Mojgenie IT Solutions

sep 2022 - 2024

Junior Web Developer

#### Mojgenie IT Solutions

sep 2024 - Current

Frontend Developer

### Projects

#### Rental Website

2024 - Present

Developed the frontend for the Rental website, similar to booqable.com, using HTML, CSS, and React. Ensured a seamless user experience with mobile responsiveness and optimized performance.

- **Role :** Frontend Developer
- **Tech Stack :** HTML, CSS, React

#### Panda Cake E-commerce

Nov 2022 - Present

Developed the frontend of Panda Cake, an e-commerce platform dedicated to cakes, using a tech stack that includes HTML, CSS, SCSS, and JavaScript. The responsive design ensures a seamless and visually appealing online shopping experience for customers.

- **Role :** Frontend Developer
- **Tech Stack :** HTML, CSS, SCSS, JavaScript

#### Badge Creator Web Application

2024

Developed a badge-creating web application for the company's printing purposes using HTML, CSS, and JavaScript. The application allows for customizable badge designs, improving the efficiency of internal printing processes.

- **Role** : Web Developer
- **Tech Stack** : HTML, CSS, JavaScript

## KTX (Kerala Technology Expo 2024 Website)

Dec 2023 - Present

Developed KTX website using Astro framework and Tailwind CSS for a dynamic and responsive user experience.

- **Role** : Frontend Developer
- **Tech Stack** : Astro, Tailwind CSS, JavaScript
- Live link: [🌐 https://ktx.global/](https://ktx.global/)

## GSoft Cloud

Nov 2022 - Present

Led the development of GSoft Cloud, a 100+ page website. Created a unique design using custom classes, avoiding external CSS frameworks. Utilized Astro, SASS, and JavaScript for a seamless user experience.

- **Role** : Frontend Developer
- **Tech Stack** : Astro, SASS, JavaScript
